OVERVIEW

Greater assurance for seniors

The Silver Support (SS) Scheme is part of a wide range of schemes that the Government has put in place to give seniors greater assurance in retirement.

Quarterly cash supplement

Introduced in 2016, the SS Scheme provides a quarterly cash supplement to seniors who had lower incomes

during their working years and now have little or no family support and resources in their retirement

Adding to retirement income

The quarterly cash supplements of the SS Scheme were raised in 2025 to strengthen support for seniors with lesser means. This enhancement adds to the retirement income of close to 290,000 Singapore Citizens aged 65 and above.
